

GEKA® plus multi-sprayer 5S

GEKA® plus multi-sprayer 5S

Advantages / benefits:High quality robust multi-sprayer with 5 different spray patterns
Robust and durable thanks to **high-quality metal components inside and outside** and GEKA® plus device plug made of chrome-plated brass
Permanent locking with **one-hand operation** for convenient and permanent watering
Individual adjustment of the water flow rate using a regulating valve
 Ideal for **left- and right-handed** users as it can be operated from both sides
Simple and intuitive setting of the spray patterns thanks to the position indicator and pictograms. Confirmation of the set position by click-in function
Fatigue-free working thanks to **ergonomic** design
Pleasant feel and non-slip thanks to **soft components** on the lever and handle
Easy cleaning of the circuit board and valve through **Clean + Repair***:
 Tool-free access to the circuit board and valve set for maintenance and cleaning

Application:.....Shower: Ideal for watering planting areas and planters
 Narrow shower: Particularly suitable for watering narrow beds and planters
 Spray mist: The fine spray mist is particularly suitable for watering delicate and sensitive seedlings
 Full jet: Ideal for filling containers or for cleaning tasks
 Flat jet: the horizontal flat jet is ideal for watering hedges, but also for cleaning tasks

Material:.....Metal components: Shower head and body made of aluminium, plate made of stainless steel, GEKA® plus device plug and valve insert made from chrome-plated brass
 Plastic components: Other components, lever and handle additionally over-moulded with TPE (soft grip)

Packaging	On card	EAN-flag
PU units	5	5
Article No.	46.1000.8	46.1000.9
