

GEKA® plus hose reels

available
now

GEKA® plus Automatic hose reels PA20GSK and PA30GSK

Advantages / benefits: **sturdy, powder-coated steel structure**
automatic roll-up of the hose with hose guide protecting the hose
gradual adjustment possible from a distance by pulling the hose
fully assembled and ready to use
optimal water throughput for hoses up to 3/4"
rust-free feed pipe and locking mechanism made of stainless steel
 with hose protection and hose stop; with GEKA® plus rotary fitting 90° made of brass
 hose guide adjustable in 45° increments, **therefore ceiling or floor mounting**
also possible
 with up to 25 m GEKA® plus rubber water hose 3/4", high-quality, robust quick
 couplings and spray nozzle made of brass + 2 m supply hose
GEKA® plus rubber water hose 3/4" made of EPDM, 5-layer with synthetic yarn,
 ID 19 mm, wall thickness 4 mm, operating pressure 20 bar, Made in Germany

Material: housing: powder-coated steel; hose stop: rubber, black; screws, hose protection
 spring: stainless steel; GEKA® plus rotary fitting: brass

Operating pressure: max. 20 bar

Temperature range: +4 to +60 °C (hose-dependent)

Special note: screws and wall plugs for wall mounting are not included in the scope of delivery;
rotatable wall mounts are available separately as accessories
